Marlene Brown
Children's Museum of Science and Technology
311 Main Street
Utica, New York 13501

Dear Marlene,

As director of Thea Bowman Child Care Center in Utica, I am pleased to offer my wholehearted support to you as you apply for funding through the President's Stimulus Program. Yours is a noble effort based on providing quality programming for the children of this community. You have done this on a very limited budget for a very long time.

The Children's Museum is a place where young people can explore the world of science, history, culture, and technology. Your exhibits are interactive and offer hands-on learning. We have brought many children to the Museum over the years and found a place of adventure and exploration.

It is our sincere hope that you receive the funding needed to continue your good work.

Sincerely,

A handwritten signature in cursive script that reads 'Jane Domingue'.

Jane Domingue
Executive Director
